- 400 Litres per operator per hour (total milk harvesting time)

### Dairy Builder

- Shed Design: Petschack & Hanily
- Phone: 0418 595 540

### Special or key features of this dairy

- This dairy is of simple (traditional) design.
- There is no automation and this suits the husband and wife team who say that milking is easy, pleasant and not rushed.
- The yard design allows for the cows to enter from different directions on the farm.
- The exit area also has a choice of directions.
- The dairy is centrally located which means the cows don't have far to walk.
- A particular feature of this farm is the absence of laneways.
- The cows make their own paths to and from the dairy.
